What is COVID-19

Coronaviruses are a large family of viruses that cause respiratory infections. These can range from the common cold to more serious diseases. COVID-19 is a disease caused by a new form of coronavirus. It was first reported in December 2019 in Wuhan City in China.

Symptoms

Symptoms of COVID-19 can range from mild illness to pneumonia. Some people will recover easily, and others may get very sick very quickly.

People with coronavirus may experience:

- fever
- symptoms such as coughing, a sore throat and fatigue
- shortness of breath

If you are concerned you may have COVID-19: seek medical attention

If you do not have any symptoms, you should still protect yourself and others.

How it spreads

The virus can spread from person to person through:

- close contact with an infectious person (including in the 24 hours before they had symptoms)
- contact with droplets from an infected person's cough or sneeze
- touching objects or surfaces (like doorknobs or tables) that have droplets from an infected person, and then touching your mouth or face

COVID-19 is a new disease, so there is no existing immunity in our community. This means that COVID-19 could spread widely and quickly.

Who is most at risk?

In Australia, the people most at risk of getting the virus are:

- travellers who have recently been overseas
- those who have been in close contact with someone who has been diagnosed with COVID-19
- people in group residential settings

People who are, or are more likely to be, at higher risk of serious illness if they get the virus are:

- people 65 years and older with chronic medical conditions
- people 70 years and older
- people with compromised immune systems

There is limited evidence at this time regarding the risk in pregnant women.

Protect yourself and others

Everyone must do the following things to slow the spread of COVID-19 and protect those who are

- most at risk.
- practice good hygiene
- follow social distancing rules and regulations
- self-isolation if instructed to by a doctor or if you are unwell

What is social distancing?

Social distancing means reducing close contact between yourself and others.

Some of the measure you can take are:

- to stay at home and away from others if you are unwell
- if you feel a cough or sneeze coming on, move away from others
- stay at least 1.5m away from other people as much as you can (e.g., in classrooms and common areas)
- large gatherings should be rescheduled, staggered, or cancelled
- do not greet people with a handshake, hug, or kiss
- hold meetings via video conferencing or phone call

The more space between you and others, the harder it is for the virus to spread.

In public

Social distancing in public means people:

- stay at home and only go out if it is absolutely essential
- keep 1.5 metres away from others
- avoid physical greetings such as handshaking, hugs, and kisses
- use tap and go instead of cash
- travel at quiet times and avoid crowds
- avoid public gatherings and at-risk groups like older people
- practise good hygiene

In schools

To reduce the spread of viruses or germs in schools:

- wash hands with soap and water or use hand sanitiser when entering school, have a regular handwashing schedule
- avoid queuing

The Agency Contract

The agent contract is issued as a written document between you (the agent) and CEG (the institutes). The contract allows you to recruit on CEG's behalf in your respective countries / territories and to receive commission for students who commence their studies at any of our institutes. Canterbury Education Group issues up to three (3) contracts – one covering USQ Sydney Education Centre (USQ Sydney), a second contract covering Canterbury Business College, Canterbury Technical Institute and Canterbury Language Academy (referred to as “the providers”) and a contract covering higher education programs at Canterbury Institute of Management (CIM).

Please note that not all agents will receive three (3) agency agreements covering all institutions. Which institutions are allocated to work with is on discretion of the Directors of CEG and the advisory board which consists of senior members of the management team. Decisions of the board in the issuing of agency contracts are also based on advice sourced by the board from CEG marketing teams.

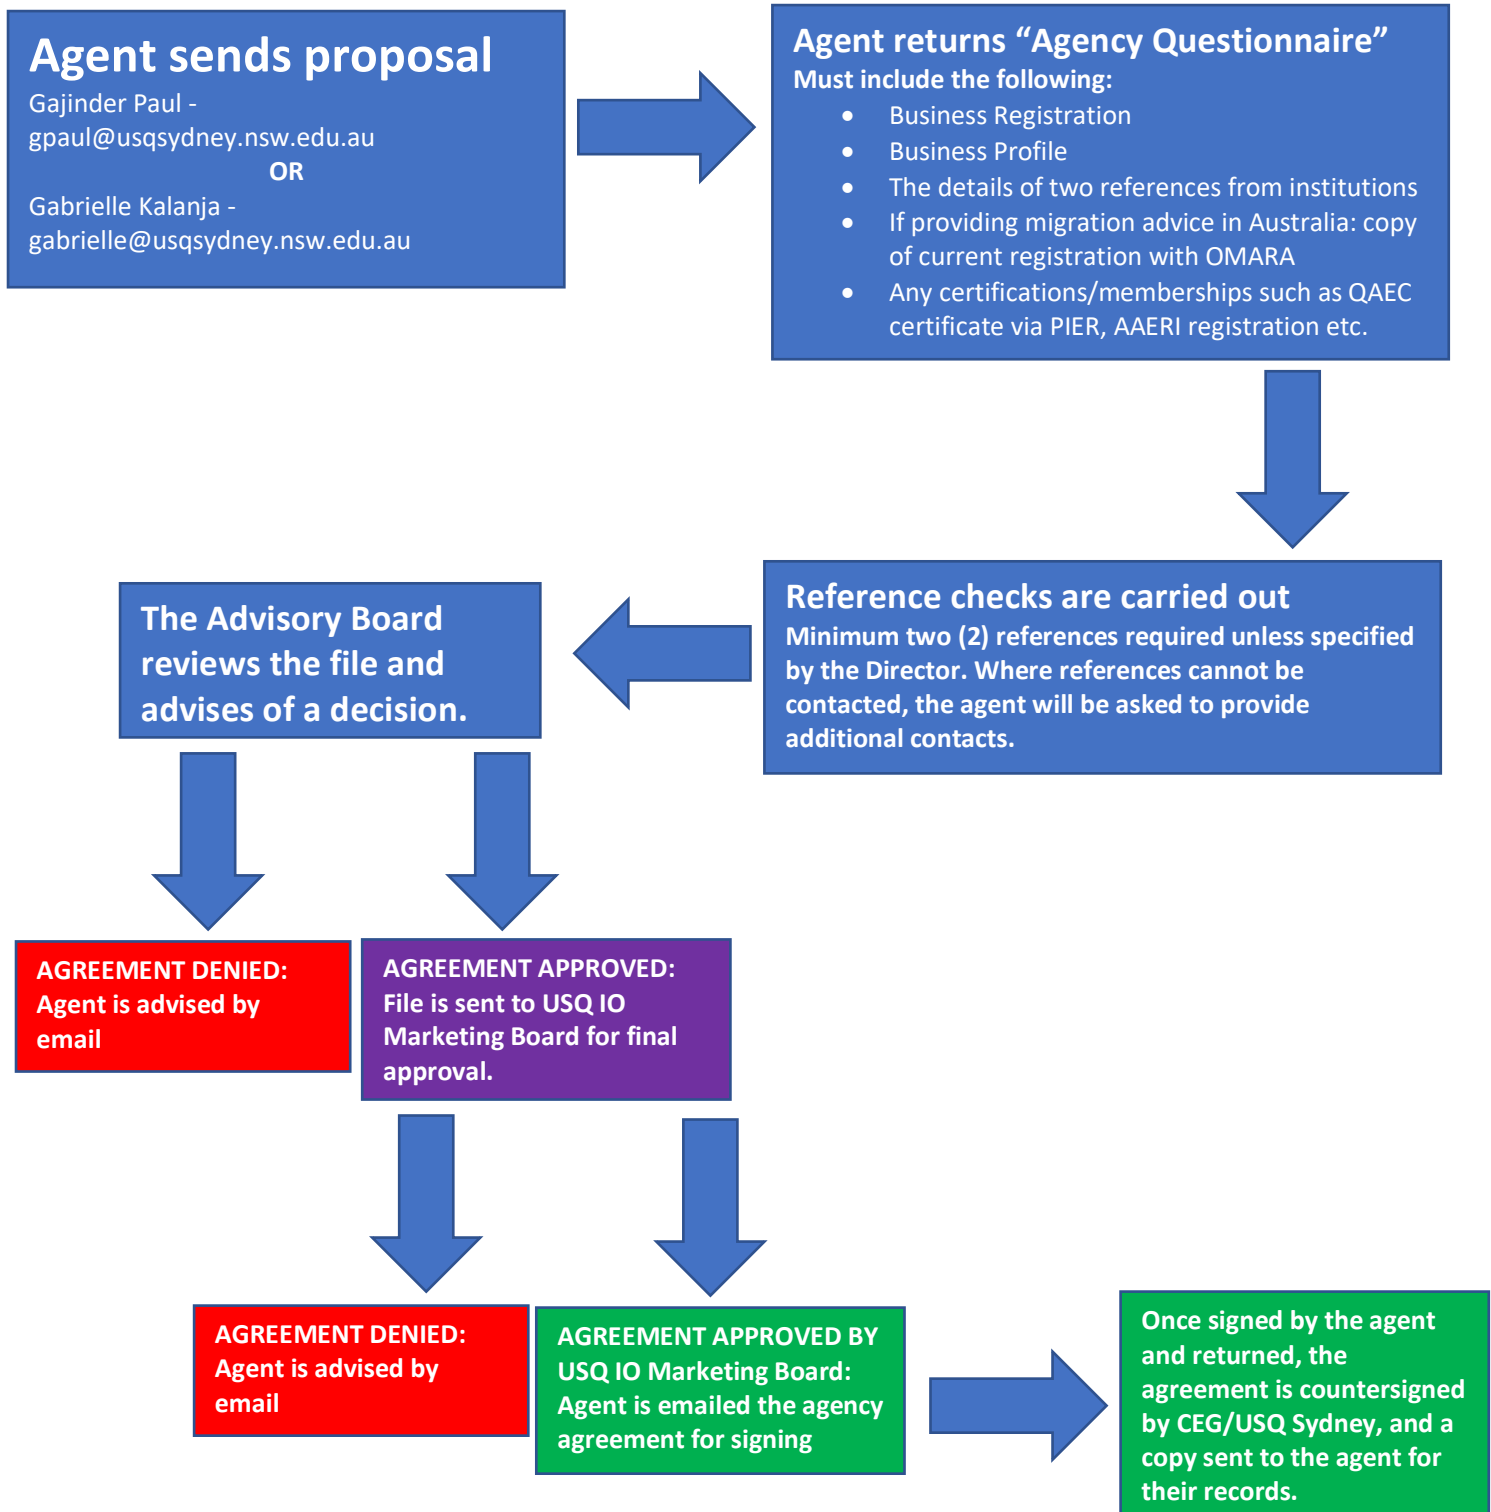

The contract outlines the responsibilities of both the institutes and the agent, and both parties must comply with the terms set out in the contract.

All institutions NOT INCLUDING USQ Sydney Education Centre

Agreements for USQ Sydney Education Centre

All agent appointments for USQ Sydney Education Centre (USQ Sydney) must additionally be approved by the University of Southern Queensland International Office (USQIO) Marketing Board before a formal agreement is made.

Agency Contract Termination

CEG and/or USQ Sydney agent contracts can be terminated by CEG management if the agent is suspected of engaging in any unprofessional conduct by providing false information of the potential students while trying to recruit them. The agreement can also be terminated by CEG management if the agent is found to be in breach of the terms agreed upon in the contract.

We advise the agents to go through the following links and stay up to date with the ongoing changes' in the laws and regulations monitoring the education industry in Australia. Important updates can also be found on our websites. Also, monitor any new information which comes from our marketing team.

- National Code of Practice for Providers of Education and Training to Overseas Students 2018 - <https://www.legislation.gov.au/Details/F2017L01182>
- Department of Home Affairs - <https://immi.homeaffairs.gov.au/>
- National ELICOS Standards 2018 - <https://www.legislation.gov.au/Details/F2017L01349>
(additional legislation which relates to programs at CLA)
- Standards for Registered Training Organisations (RTOs) 2015 - <https://www.legislation.gov.au/Details/F2019C00503>
(additional legislation relates to programs at CTI and CBC)

Simplified Student Visa Framework (SSVF)

The simplified student visa framework (SSVF) is intended to commence on 1 July 2016.

Key changes under the SSVF are:

- a reduction in the number of student visa subclasses from eight to two; and
- the introduction of a simplified single immigration risk framework for all international students.

The SSVF is designed to make the process of applying for a Student visa simpler to navigate for genuine students, deliver a more targeted approach to immigration integrity and reduce red tape for business.

This factsheet summarises the key changes for education providers under the SSVF compared to the current Student visa process.

Implications of the SSVF for education providers

Under the SSVF, all education providers registered with the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) have been allocated an immigration risk rating between one (lowest risk) and three (highest risk), based on the immigration risk outcomes of their international students over the previous 12-month period. The same approach has also been used to allocate an immigration risk rating to each country.

The combined immigration risk outcomes of the student's education provider and country of citizenship will be used to guide the level of financial capacity and English language proficiency related documentation that the student needs to provide with their student visa application.

Through this model, all education providers across all education sectors will have access to the benefits associated with 'streamlined evidentiary requirements' for at least some countries.

Meaning of streamlined evidentiary requirements

Where streamlined evidentiary requirements apply, the student visa applicant will generally be able to satisfy the Department of their financial capacity and English language proficiency by declaration. This is similar to existing streamlined visa processing and Assessment Level (AL) 1 arrangements.

The Department will however retain the discretion to seek additional information about the student's financial capacity and English language proficiency where appropriate.

All students, regardless of the financial capacity and English language proficiency documentation that may be required, will continue to have to meet all other core visa criteria, such as the Genuine Temporary Entrant requirement and health and character criteria.

Eligible students for streamlined evidentiary requirements under SSVF

The following table provides an overview of the students that will notionally have streamlined evidentiary requirements under the SSVF.

Eligibility for streamlined evidentiary requirements is determined on the combined immigration risk rating of the student's country and citizenship and intended education provider. Where the student intends to package courses to combine their preliminary course of study with their main course of study, the education provider immigration risk rating applied to the Student visa application would correspond to the student's main course of study.

In the table S refers to streamlined evidentiary requirements while R refers to regular evidentiary requirements. Where regular evidentiary requirements apply the student will generally be required to provide evidence of their financial and English language capacity with their visa application.

		Country Immigration Risk		
		One	Two	Three
Education Provider Immigration Risk	One	S	S	S
	Two	S	S	R
	Three	S	R	R
